

5.2.2022

We have been enjoying the snow in Iisalmi since November. Kari Kuokka started prepare snowmobile tracks already at the beginning of December, which was very far-sighted move.

We have had heavy snowfall and freezing temperatures.

A network of snowmobile tracks is in excellent shape! Here are a some picks from the terrain.

*The functions of the competition center have been carefully considered
and we are following current COVID-19 guidelines and recommendations.*

The competition itself is the most important, and we will focus on the success of its arrangements.

Welcome to Iisalmi!

Ritva Partanen
